This is a Mercator Projection - What do you notice about it? Describe it

Map Work 8 - Map Projections

The world has seven continents and five oceans.

Europe is a **continent**. It is an area on the Earth that contains many different **countries**, including the UK.

The United Kingdom of Great Britain and Northern Ireland is made up of England, Northern Ireland, Scotland and Wales.

The countries are divided further into **regions**.

Counties are smaller areas. For example the counties of Dorset, Gloucestershire, Wiltshire, Devon and Cornwall are all part of the South West region.
